OCTALUMINA

DYNAMIC LIGHT ILLUMINATED FRAMES

MOVING LIGHT
INDIVIDUAL CONTENT
MAXIMUM APPEAL

The eye-catcher for your products!

Light sparks our interest. Completely automatically. If it moves, it is difficult to escape its spell, because movement increases our attention. We are curious about what happens next. A unique concept for your product presentations. The combination of light and movement – an unbeatable duo!

Maximum advertising space. Minimal space requirement.

LEDs from OCTANORM can develop a high radiance when installed in the smallest of spaces – and are extremely durable and energy efficient. The advertising message can be adapted to new products in no time at all: simply replace the fabric motif or upload new video content. With OCTALumina dynamic light you can showcase a real highlight.

LED animations make your picture come alive!

Each LED can be controlled individually and enables surfaces to be backlit in a targeted manner. From colours and movements to different levels of brightness - adapted to your individual content.

EXCITING LIGHTING EFFECTS

BRILLIANT COLOURS
STRIKING IMAGES
MORE THAN AN ILLUMINATED FRAME

Set your illuminated frames in motion!

Direct the eye of the viewer and set hotspots in your advertising messages. From different levels of brightness to colour gradients and light animations, there are no limits with OCTALumina dynamic light.

From illuminated frame to dynamic light. In 5 minutes.

The LEDs are pre-mounted on a plate and are inserted in the rear wall of the illuminated frame. This means that previous OCTALumina illuminated frames can also be retrofitted. OCTALumina dynamic light is available in five different standard sizes and in special format.
